**CORRIGENDA TO TABLE D-III PRINTED AT PAGES 147—149 OF PART II-B TABLES OF THE CENSUS OF INDIA, 1951, VOLUME III—MADRAS AND COORG.**

**Table D-III—Scheduled Castes and Scheduled Tribes**

The appended table furnishes revised figures in respect of the population of Scheduled Castes sex-wise and replaces the figures given in columns (2), (3) and (4) of Table D-III printed at page 149 of the Census of India, 1951, Madras and Coorg, Part II-B Tables:

2. The circumstances leading to the amendment are briefly as follows:—

At the time of sorting the enumeration slips in 1951 the sorters were given a list of the 77 Scheduled Castes shown in Roman type in the list in paragraph 3 below. No instructions were given to the sorters as to how the slips were to be treated in the case of persons who returned themselves by a generic Scheduled Caste name such as Harijan or Depressed Class or Adivasi or by a recognised synonym such as Pulacheruman, Eralan, Kudan, Rolan, Alen, Paramban (for Cheruman), with the result that sorters in Tabulation offices classified the communities according to their own interpretation. Consequently, a number of Scheduled Caste members who had returned themselves by generic names or by synonymous names were left out of the Scheduled Castes count. This situation came to the notice of the Government of India, who decided after careful consideration that persons who had returned themselves by generic or synonymous Scheduled Caste names should be counted as Scheduled Castes and that the Census Tables already published should be revised, where necessary, to show the correct position. In order to arrive at the correct figures of Scheduled Castes population a fresh sorting of the 1951 Census slips was accordingly organised in Madras.

3. As in the 1951 Census, the slips have been dealt with by whole Census tracts which consisted of (i) rural areas in a taluk, or (ii) a whole city, or (iii) a combination of towns in one or more taluks, and the district figures have been compiled from the tract-wise figures and are given in the Table appended.

4. Before commencing the sorting, a list of synonymous names (i.e.) names synonymous with those of the communities published in the 'Constitution (Scheduled Castes) Order, 1950' was prepared in consultation with the Collectors of districts and sent to the State Governments of Madras and Andhra for acceptance. The list as finally accepted by the State Governments was got approved by the Government of India. Castes printed in Roman characters in the list below have been declared to be Scheduled Castes in the composite Madras State (as it existed before the formation of the Andhra State) by the 'Constitution (Scheduled Castes) Order, 1950' issued by the President under Article 341(1) of the Constitution of India. The names in *italics* represent the synonyms of the names printed above them in Roman characters. 5. The appended corrigenda to Table III shows the revised population of Scheduled Castes for the composite Madras State. The Andhra State was carved out of the composite Madras State in 1953 with the districts of Srikakulam, Visakhapatnam, East Godavari, West Godavari, Krishna, Guntur, Nellore, Cuddapah, Kurnool, Anantapur and Chittoor and the taluks of Adoni, Alur and Rayadrug of the old Bellary district. The other taluks of Bellary district were transferred to the Mysore State and they now form part of that State. Separate figures of Scheduled Castes population for these three areas are given below:—

	According to 1951 Census			According to re-sort		
	Persons	Males	Females	Persons	Males	Females
Andhra State	2,712,939	1,374,967	1,337,972	2,555,623	1,295,087	1,260,536
Portions of Bellary district transferred to Mysore	148,567	75,630	72,937	108,643	54,095	54,548

It may be noticed that according to the re-sort there is a decrease of 157,316 and 39,924 in the areas relating to Andhra and Mysore States, respectively, and an increase of 24,669 for the composite Madras State. The districts showing increases and the districts showing decreases are specified separately below:—

## MYSORE STATE

All the taluks of Bellary district, except Adoni, Alur and Rayadrug	39,924
---	--------

The districts which show large decreases are Anantapur, Bellary and Kurnool. The reason for the large decrease is that members of the 'Boya' community found in large numbers in these districts had been wrongly classified under Scheduled Castes at the 1951 Census. The 'Boyas' in these districts are in some places known as 'Boya Valmiki'; and as 'Valmiki' is one of the communities included in the 'Constitution (Scheduled Castes) Order 1950' the 'Boyas' were wrongly classified under Scheduled Castes at the 1951 Census in one Tabulation region. This mistake has been rectified at the re-sort.

The increases shown in some districts are due to the addition of population returned under generic and synonymous names of Scheduled Castes communities.

6. Separate population figures have been ascertained for the following individual castes, the names of which

are likely to be considered for inclusion in or exclusion from the existing list of Scheduled Castes:—
